

Turquoise Pond & Lake Dye

Easy to Apply Pond and Lake Colorant

This concentrated turquoise lake colorant is designed for use in large ponds & lakes. Pond and Lake Dye is ideal for closed and non-flowing bodies of water. Each water-soluble packet of concentrated dye treats roughly 200,000 gallons of water.

Directions

No measuring or mixing required. Simply toss one water-soluble packet directly into the pond for every 200,000 gallons (~ 750,000 L) of water.

The water-soluble packets will dissolve within 10-15 minutes of coming into contact with the water.

Re-apply dye as needed. More frequent applications may be required with rain and runoff.

This formulation **is non-toxic and** is compatible with most aquatic herbicides and algaecides.

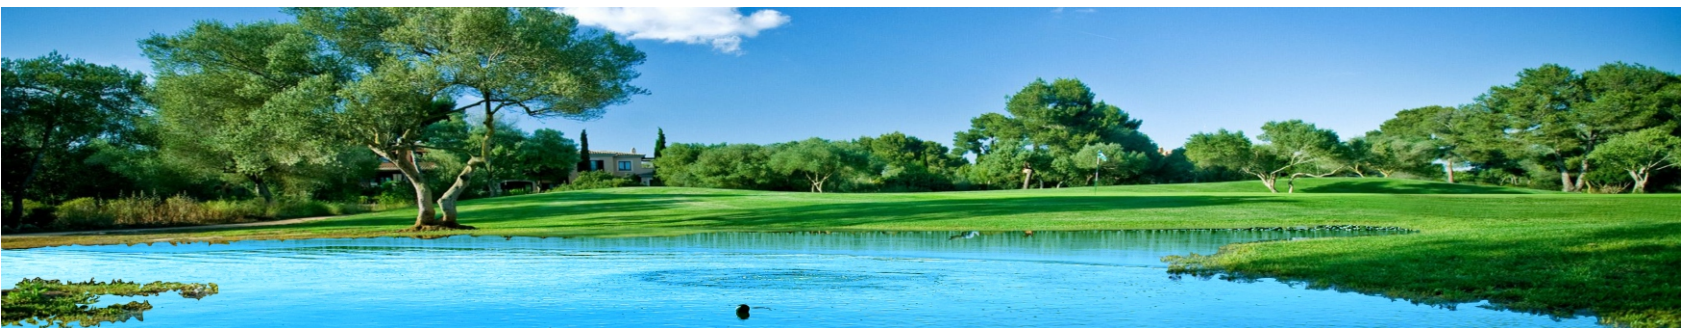

Applications

- Ponds
- Lakes
- Dugouts
- Fish ponds
- Golf courses & residential developments
- Filter sunlight weeds and algae need to grow
- **CAUTION: Turquoise Pond & Lake Dye may turn water green if algae is present in the pond. Use Blue dye only in algae water.**

Product Features

- Easy to apply
- Water soluble packets
- No measuring required
- **Completely natural and chemical free**
- **Safe for livestock & wildlife when used as directed**
- **Mixes quickly with water to allow for swimming without staining after just 12 hours**
- **Will not stain pets, birds, plants or other wildlife after product is mixed in pond**
- Available in single packs, 3- packs or 6- packs
